

H/PNA Parking FAQs December 27, 2010

Where should I parking during street cleaning?

- Occurs once a week on each side of the street, from 9:00 am at 12:00 pm. Specific day is noted on signs posted on each side of the street. Note that Lark Street may have additional times posted. Tickets can be issued at any point within the 9 am to 12 pm time frame (even if the street cleaner has already cleaned the street).

Where should I parking during a house/apartment move?

- You can request a “No Parking” order in front of your building during your move. Just call the Traffic Safety Office at 458-5610 or 458-5611, Monday through Friday between 8:00 am and 4:00 pm. Requests should be made at least 72 hours in advance. There is no fee for this service.

What should I do about parking during a snow emergency?

- See the Department of General Services (DGS) web site for postings of snow emergencies, or call DGS at 476-SNOW (476-7669) for snow emergency information.

In general, beginning at 8:00 pm on the first night of a Snow Emergency, remove your vehicle from the side of the street with odd numbered buildings. After 24 hours from the time the Snow Emergency goes into effect, the parking restrictions reverse. Beginning at 8:00m pm on the following day, do not park on the even numbered side of the street for the next 24 hours. After 48 hours from the initially designated time, at 8:00 pm, the Snow Emergency will be officially declared over and normal parking regulations and restrictions go back into effect. During the Snow Emergency residents can usually park in Washington Park and the Eagle Street Garage.

Vehicles found obstructing snow removal will be towed. If your vehicle has been towed, call 458-5676. In addition, tickets for obstructing snow removal will be issued.
